Truck Driver - Laborer (BC05)	17.77
Refuse Collector (BC06)	18.48

Refuse Collection Crew Leader (BC09).....	21.42

Accordingly, Offeror should consider the aforementioned wage rate when preparing the offer.

CONTRACT ADJUSTMENT PURSUANT TO SECTION 103-55, HRS

Should the wages of State employees increase during any period of the contract, subsequent to March 1, 2009, the Contractor may request for increase in contract price. The increase requested must result in increase in wages to the Contractor's employees performing the work herein, including any increase in costs for benefits required by law that are automatically increased as a result of increased wages, such as federal old age benefits, worker's compensation, temporary disability insurance, unemployment insurance, and prepaid public health insurance.

Contractor's request for an increase must meet the following criteria:

1. At the time of bidding, the Contractor must have specified on the appropriate Offer Form page, the percentage of the bid price per cubic yard/load that represents labor costs. If the Contractor fails to specify the percentage, the Contractor's request for increase may not be considered.
2. Contractor's request for an increase shall be submitted in writing to the Department of Public Safety's Planning, Programming, and Budget Office, on a timely basis.
 - a. Request for increase for the initial contract period must be made as soon as practicable after the State wage statements are made public. **Contractor's request for an adjustment to the contract price due to public employee wage increases, shall be retroactive only to the beginning of the current twelve-month or shorter contract period.**
 - b. Request for an increase for a supplemental period of the contract should be made prior to the start of the supplement. Contractor should call the Purchasing and Contracts Staff (587-1215) to obtain the current wage information.
3. At the time of request, Contractor must provide documentation to show that he is in compliance with Section 103-55, HRS, i.e., its employees are being paid no less than the known wage of the specified public employees. Documents shall include employees' payroll records and a statement that those employees are being utilized for this contract.
4. The price adjustment method by which the bid price shall be calculated is as follows:

First Increase: $I = (O \times L \times S)$

Subsequent Increase(s): $I = (A \times S)$

Whereby: I = Dollar amount increase in bid price per cubic yard/load due to an increase in State wages;
 O = Original contract price per cubic yard/load;
 L = Percentage of bid price cubic yard/load designated by Contractor as representing labor costs;
 S = Percentage increase in wages paid to State employees performing similar work;
 A = That portion of the contract amount representing wages (this amount is O times L plus any increase(s) in contract price per cubic yard/load resulting from increase in State wages).

The increase shall be reflected in either a contract modification or in the supplemental agreement issued for any extended period of the initial contract.

5. In addition to the allowed wage increase, Contractor may apply for the percentage (%) fringe benefits required by statute. However, the resulting fringe benefit percentage increase shall only be applicable to the actual dollar amount of the increase, and the State shall only consider those benefits that are required by contract and are directly affected by the wage increase.

If the request includes an adjustment for wage related fringe benefits, Contractor must provide support documentation and an itemized percentage breakdown of the fringe benefits being paid. The State has determined that the applicable fringe benefits for wage related price adjustments shall be limited to federal old age benefits, workers' compensation, temporary disability insurance, unemployment insurance and prepaid health care.

The percentage increase for fringe benefits is set at 16%, which includes workers' compensation, temporary disability insurance and unemployment insurance. If Contractor is able to document that its percentage for fringe benefits is higher than 16%, the State will review the Contractor's claims.

If allowable fringe benefits are requested, then the following method of calculation shall be applied to the allowed wage increase:

$$B = I \times 16\%$$

Whereby: B = Allowed increase for fringe benefits
 I = Dollar amount increase in bid price per cubic yard/load due to increase in State wages
 16% = % of wage increase (I) allowed for fringe benefits

CONTRACT PRICE ADJUSTMENT DUE TO REFUSE DISPOSAL RATE CHANGES

Subsequent to bid opening, when the County of Hawaii (COUNTY OF HAWAII) has a disposal rate change, the following formula will be used to calculate the increase per cubic yard/load.

$$[(N - O) \div 2000] \times W \times C$$

Whereby: N = New COUNTY OF HAWAII disposal unit charge per ton
 O = Old COUNTY OF HAWAII disposal unit charge per ton
 2000 = Pounds per ton

- W = Base weight per cubic yard of refuse (125 lbs. per container cubic yard and 400 lbs. per compactor cubic yard will be used)
- C = Cubic yards per container/compactor

The increase shall be reflected in either a contract modification or in the supplemental agreement issued for any extended period of the initial contract.

RECYCLING FUND SURCHARGE

Offerors shall include the COUNTY OF HAWAII recycling fund surcharge in their bid prices. No increases will be allowed to the Contractor based on the 12% surcharge on the **current COUNTY OF HAWAII refuse disposal rate of \$85.00/ton**. If the COUNTY OF HAWAII does increase the recycling fund surcharge, the following formula will be used to calculate the increase per cubic yard/load:

$$[(R \times I) \div 2000] \times W \times C$$

- Whereby: R = COUNTY OF HAWAII refuse disposal rate per ton;
 I = % increase to COUNTY OF HAWAII recycling surcharge;
 2000 = Pounds per ton;
 W = Pounds per cubic yard of refuse (125 lbs. per container cubic yard and 400 lbs. per compactor cubic yard will be used);
 C = Cubic yards per container/compactor.

SOLID WASTE MANAGEMENT SURCHARGE

Offerors shall include the State's solid waste management surcharge in their bid price, if applicable. If there is a future increase for this surcharge, the adjustment per cubic yard shall be based on the following formula:

$$(I \div 2000) \times W \times C$$

- Whereby: I = Amount of the State's solid waste management surcharge increase per ton
 2000 = Pounds per ton
 W = Pounds per cubic yard of refuse (125 lbs. per container cubic yard and 400 lbs. per compactor cubic yard will be used)
 C = Cubic yards per container/compactor

PRICE ADJUSTMENT BY THE STATE

Change in Number of Pickups or Containers. The total contract price is based on the maximum amount of refuse to be generated per contract period. The State reserves the right to increase or decrease the number of pickups and/or containers. Such increases and decreases shall be made only upon written authorization/contract modification of the Contract Administrator. If an increase or decrease in refuse is generated as to necessitate additional or less pickups or containers, the bid price per cubic yard/load shall be used to compute the adjusted cost.

INSPECTION OF OFFERS

At the bid opening, all offers may be inspected after having been publicly read, provided that only one offer be inspected at a time and that no offers shall be permitted to leave the bid opening room.

After the formal procedure of bid opening, all offers will be evaluated for award recommendation. During this period, offers will not be available for inspection.
